

Medicare Set-Asides

Preparing for the road ahead...

Because Medicare will not pay a beneficiary's medical expenses where a settlement includes funds for future medical expenses, parties to any workers' compensation settlement must allocate, or "set aside" funds for future medical services that Medicare would otherwise reimburse.

The set-aside amount is determined on a per-case basis and should be reviewed and approved, as appropriate, by the Centers for Medicare and Medicaid Services (CMS), the federal agency that administers Medicare.

Only when the determined set-aside amount is exhausted and accounted for to the CMS will Medicare agree to be the primary payer for related future expenses.

Hoover can help you prepare for the road ahead. We have 35 years of workers' compensation management experience, and we are experts in preparing Medicare Set-Asides that meet

**The CMS is
protecting
its interests.**
